

..... · **Melissa *for* Mayor** ·

Dear Residents of Wood Buffalo,

I begin with thanks for your past support as together, we have overcome heavy challenges, built productive relationships, and planned for an amazing future. We have moved beyond financial impossibility to a budget that builds not just for today but also tomorrow.

We will be able to secure our needs and build our wants, without unduly burdening residents of today or families of the future. Our Municipal Development Plan vision of becoming **“a global model for sustainable living in the north”** will be built and will demonstrate just how today’s economy can help build the best possible future here and around the world!

I am a dreamer, a builder and a believer.

I ask you now, to please consider giving me your vote for Mayor, and your confidence, to carry out an ambitious vision.

Dream with me, build with me and believe with me so that we can continue to achieve amazing things today and for the future.

Faithfully yours,

Melissa Blake
